NEW

One-Piece Power Window Kits, 1964-72 El Camino

One-piece window kits have been precisely engineered for an excellent fit and factory appearance in all 1964-72 El Camino models. Each kit contains everything necessary to swap your stock windows over to a smooth looking one piece kit including 3/16" green tinted and tempered glass, glass run channel, window rollers, window roller channel, front vertical roller guide, inner and outer window felts with chrome bead, weatherstrip adhesive and necessary hardware. Detailed instructions are also included to aid in a straightforward installation of this extraordinary custom window kit.

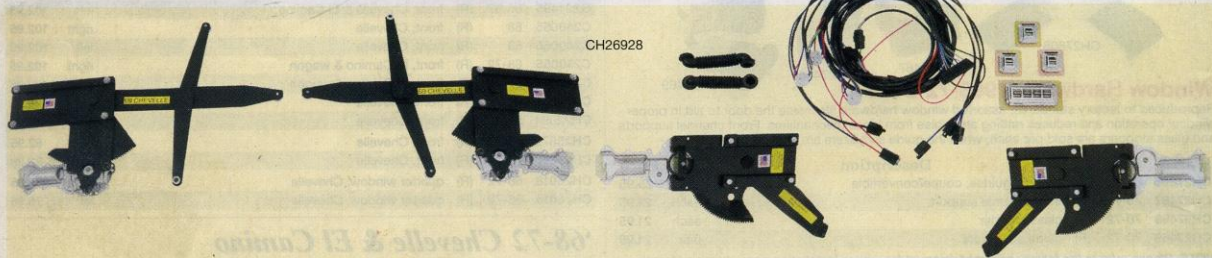

| Part# | Year | Description | Qty | Price |
|---------|-----------|-------------|-----|--------|
| CH27839 | 64-67 (A) | | KIT | 739.95 |
| CH27840 | 68-72 (A) | | KIT | 739.95 |

NOTE: One-piece power window kits are for use with OE manual windows. Kits will work with some power window kits, some modification to the regulator mechanism may be required.

Power Window Kits, 1964-72

This is a direct bolt-in, model-specific, power window kit that converts manual windows over to power. It comes with regulators (made of 1018 cold-roll steel for strength and durability), Delco motors, brass thrust bearings, switches, conduit and wiring. Gears have been treated for long life. Kit carries a lifetime warranty.
